

JOYMIE LACABA

Project Coordinator & QA · AI Product Builder · Freelance Web Developer

Angeles, Pampanga, Philippines | GMT+8 | Open to Remote

joylacaba52@gmail.com | LinkedIn | GitHub | slashcal.com

PROFESSIONAL SUMMARY

Project Coordinator and QA contractor for a Singapore-based mobile game studio through May 2026, with a foundation in customer support and IT helpdesk. Ran daily delivery cadence, QA, and stakeholder alignment for a live title (Pool Masters) and a second concurrent project. On the side I build AI products solo using AI coding tools, including SlashCal (an AI scheduling platform), and I take on freelance web projects, most recently building out an aromatherapy brand's WordPress site. Bias toward shipping cleanly, catching things before they break, and respecting both the product and the user's time.

PROFESSIONAL EXPERIENCE

Project Coordinator & Quality Assurance (Contractor)

Aug 2024 – May 2026

Eyeball Games Private Limited · Singapore (Remote)

Title progression per signed contract addendums: QA Associate + Community Support (Aug 2024 – Jan 2025) → Project Coordinator & Quality Assurance (Feb 2025 – May 2026)

- Coordinated project scope, schedules, and milestones for a 5-person team (4 engineers + self) across a live title (Pool Masters on Google Play) and a second concurrent project.
- Ran daily standups and tracking calls, keeping developers, designers, and stakeholders aligned on status, risks, and next actions.
- **Sole QA on Pool Masters:** owned the full bug lifecycle in Notion from discovery through fix verification; coordinated playtests with players and developers.
- Led QA on a new in-game control scheme; defined intended feel, function, and edge-case behavior, with design approved by stakeholders.
- Maintained project documentation including meeting minutes, action items, and risk registers.
- Engaged with players on reported in-game bug issues alongside a teammate; triaged reports, verified reproduction, and coordinated fixes.

Freelance Web Developer (WordPress / Elementor)

2026

IZORAN · Aromatherapy & Natural Cosmetics · Freelance

- Expanded an existing WordPress website by designing and building new pages in Elementor.
- Created dedicated product pages for multiple aromatherapy products with structured sections for descriptions, benefits, ingredients, usage, safety information, and FAQs.
- Designed and implemented Products, Workshops, and Private Aromatherapy Experiences pages to improve navigation and user experience.
- Built responsive layouts and integrated client-provided branding, typography, colors, and photography; configured site navigation and internal linking between pages and product detail pages.
- Worked directly with the client to iterate on content, layout, and visual design based on feedback, and prepared the site structure for future QR-code integration linking physical products to online product information.

IT Assistant

Dec 2023 – May 2024

East West BPO · Angeles, PH · On-site

- Provided IT support to BPO employees: account setup, hardware troubleshooting, software installations, access management, and helpdesk ticket resolution.
- Supported onboarding and offboarding of agents across multiple account teams; maintained internal IT documentation and workstations.

Career Break: Operations & Self-Directed Learning

Dec 2022 – Nov 2023

Helped run a small wellness business (bookings, staff supervision, payments, inventory) while investing in self-directed learning before returning to tech through the IT Assistant role.

QA Intern

Sep 2022 – Nov 2022

Twist Resources · 3-month internship · Remote

- Performed manual functional and regression testing on web and mobile applications for client projects within Agile release cycles.
- Wrote and updated test cases; logged bugs in JIRA and TestRail; picked up basic Selenium and Postman automation.

Customer Service Associate

Sep 2021 – Mar 2022

Concentrix · Angeles, PH · On-site · Account: Ring (Amazon)

- Provided customer support for Ring smart-home products to US-based customers via phone, chat, and email; troubleshooted device and account issues and escalated complex cases.
- Maintained detailed case notes and met SLA targets in a high-volume, US-business-hours environment.

NOTABLE PROJECTS

SlashCal (slashcal.com)

2025 – Present · Node.js, PostgreSQL, Claude / Gemini APIs

AI scheduling platform I built and own solo using AI coding tools. Designed the product positioning, ICP segments, and operating rules; architected an event-driven system with an autonomous email assistant, LLM reply classification, scheduled jobs, and guardrail-based monitoring over Gmail (SMTP/IMAP), Google Calendar, and Slack.

CORE COMPETENCIES

Project Delivery:	Cross-functional coordination · Daily standups · Sprint & task prioritization · Stakeholder alignment · Release readiness · Risk registers · Milestone tracking
Quality Assurance:	Manual testing (web & mobile) · Test case design · Functional & regression · Playtest facilitation · Bug triage · Fix verification · Release sign-off
Web & Design:	WordPress · Elementor · Responsive web design · UI / UX · Website content architecture · Brand implementation · Client communication
AI & Automation:	AI-assisted development with Claude and Cursor · Prompt engineering · Workflow automation · LLM API integration
Technical:	JavaScript · SQL · React · Node.js / Express · PostgreSQL · Agile / Scrum
Tools:	Notion · JIRA · TestRail · Postman · WordPress · Elementor · Slack · GitHub · Trello · Railway · Claude · Cursor
API Integrations:	Claude API · OpenAI API · Google Gemini API · Stripe · Google Calendar · Gmail (SMTP + IMAP) · Slack · OAuth
Languages:	English (professional) · Filipino (native)

EDUCATION

Bachelor of Science in Information Technology

Graduated June 2021
